OSHA RECORDABLES SINCE 2018

Diversified Underground Services, Inc. (DUS) provides utility infrastructure installation for telecommunications, electric and natural gas networks throughout the Southeastern United States. Across 250+ projects, our experienced team has supported high-production programs from FTTH and backbone construction through electric distribution hardening and specialty underground work.

CORE CAPABILITIES

TELECOMMUNICATIONS & FIBER

- Horizontal directional drilling
- Plowing and conduit placement
- Aerial construction
- Fiber blowing, pulling and splicing
- FTTH, backbone and long-haul construction
- Small-cell infrastructure

ELECTRIC & NATURAL GAS

- Transmission and distribution infrastructure
- Electric distribution hardening
- Substation fiber-ring installation
- Natural gas utility construction

SPECIALTY SERVICES

- Missile boring
- Ground-penetrating radar (GPR)

MANAGEMENT EXPERIENCE

30+ crew members with team experience ranging from 5 to 34 years across the utility disciplines we serve.

SELECTED PERFORMANCE

Verizon / Black & Veatch	Backbone, long-haul & small cell
Florida Power & Light / TEP	Substation fiber ring
Georgia Power	System hardening
Enercon / TECO	Utility hardening
Primoris / TECO	Utility hardening
Irby / Duke Energy	Utility hardening
OUC / Skanska-Granite-Lane JV	Electric distribution
IQ Fiber	FTTH & backbone
Spectrum / Charter	ARDOF, FTTH & backbone
Metronet	FTTH & backbone
AT&T	Local FTTH

DOCUMENTED SAFETY PERFORMANCE SINCE 2018

Company OSHA records document approximately 46,000 hours worked annually since 2018, with 0 OSHA-recordable cases, 0 days away or restricted, and TRIR and DART rates of 0.00.

SELECTED CLIENTS & PARTNERS

VERIZON	AT&T	SPECTRUM	IQ FIBER	METRONET	BLACK & VEATCH
FPL	TECO	DUKE ENERGY	OUC	CROWN CASTLE	CFX
